

SYNERGEX ACQUISITION OF SJS CONTROL TECHNOLOGIES ENHANCES RFID CAPABILITIES AND OFFERINGS

Combined operation builds market-leading position in RFID implementation

Mississauga, Ontario (December 5, 2005) – Synergex Corporation (TSXV: SYX) (“Synergex”), a leading provider of technology-based business solutions, today announced it will acquire SJS Control Technologies Inc. (“SJS”), a privately held company specializing in Radio Frequency Identification (“RFID”) technology and industrial automation.

“SJS directly complements our existing RFID service offering,” said David Aiello, President and CEO of Synergex. “RFID is revolutionizing supply-chain management and this is part of our strategy to expand our leadership in this emerging technology. The technical skills, industry experience, and clients of SJS will position us as a dominant player in the RFID implementation space today.”

The two companies have signed a letter of intent and the terms of the transaction, which is scheduled to close by the end of December 2005, were not disclosed. The assets of Rhotech Tooling Inc., a subsidiary of SJS, are also included in the transaction.

Located in Whitby, Ontario, and founded in 1984, SJS provides services to a diverse customer base spanning Canada, USA, Mexico and Europe. The company has extensive expertise in the design, installation and maintenance of RFID solutions, Programmable Logic Control (“PLC”) automation of technology machines in industrial and supply-chain environments, including moulding, stamping, plating and assembly of manufacturing lines.

Stephen Szuhai, founder and President of SJS, will become Vice President of Synergex Technology RFID and PLC services business unit. The 10 employees of SJS will become part of the new unit and operations will continue in Whitby.

“This is a win-win situation for both Synergex and SJS Control Technologies,” said Mr. Szuhai. “Harmonizing and combining our operations with Synergex will enable us to efficiently serve more customers.”

About Synergex Corporation

Synergex Corporation is a leading provider of technology-based business solutions focused on optimizing customer business processes. The Corporation is comprised of several integrated workgroups: 1) Synergex Commercial Gateway is the historical core business of the Corporation and delivers a diverse, value-added suite of supply chain management solutions for manufacturers and retailers, primarily in the computer entertainment sector; 2) Synergex Technology designs, implements, and supports customer Information Technology infrastructures, including Radio Frequency Identification (“RFID”) technology, provides technical staffing services, and the design and implementation of customized LCD system

solutions for customers; and, 3) Synergex Business Information provides commercial credit risk evaluation and reporting, accounts receivable management, background checking, and paralegal services.
